SUMMARY

Front-End Developer specializing in React.js and TypeScript with experience building responsive web applications and reusable UI components. Skilled in REST API integration, state management, and performance optimization. Familiar with Node.js, Express.js, and MongoDB through a hands-on MERN stack internship. Seeking a Front-End Developer role to contribute to scalable and user-focused web applications.

SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

State Management: Redux Toolkit, Context API

Backend: Node.js, Express.js, MongoDB, MySQL

Tools: Git, GitHub, Postman

Concepts: Responsive Web Development, REST API Integration, Performance Optimization

EXPERIENCE

Information Technology Institute (ITI)

Nov 2024 – Apr 2025

Web Development Intern (MERN Track)

- Built a full-stack MERN web application using React.js, JavaScript (ES6+), Node.js, Express.js, and MongoDB.
- Developed and integrated RESTful APIs to manage application data and implement CRUD operations.
- Developed responsive, component-based user interfaces using React.js and Bootstrap.
- Implemented global state management using Redux Toolkit and Context API.
- Collaborated in Agile development teams, using Git and GitHub for version control, code reviews, and collaborative development.

PROJECTS

Craftora | React.js, JavaScript, Node.js, Express.js, MongoDB, Stripe | Live Demo

- Built a full-stack MERN e-commerce platform with a responsive React.js frontend, secure user authentication, and Stripe payment integration.
- Integrated RESTful APIs and designed reusable React components to support efficient data management and a scalable frontend architecture.

Hasmin – Bakery Website | React.js, JavaScript (ES6+), Tailwind CSS | Live Demo

- Built a responsive, mobile-first React.js website optimized for different screen sizes and devices.
- Developed reusable UI components with Tailwind CSS while ensuring consistent styling and cross-browser compatibility.

Flyee – Flight Booking Website | React.js, JavaScript (ES6+), Context API

- Developed an interactive flight booking interface using React.js and Context API for dynamic state management.
- Built modular and reusable React components to support a maintainable and scalable frontend architecture.

ShopCart – E-commerce Application | React.js, JavaScript (ES6+), Redux Toolkit

- Developed an e-commerce application using React.js and Redux Toolkit for centralized global state management.
- Optimized React component structure and minimized unnecessary re-renders to improve frontend rendering performance.

EDUCATION

Assiut University

Oct 2020 – Jul 2024

Bachelor of Science in Computer Science, GPA: 3.5/4.0

Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Software Engineering

LEADERSHIP EXPERIENCE

UKLC (UK Language Courses)

Summer Programs 2025 & 2026 | Manchester & Nantwich, UK

Activity Team Leader

- Led and coordinated daily activities and excursions for groups of 15+ international students across two summer programs.
- Handled real-time problem solving, conflict resolution, and safety procedures in fast-paced international environments.
- Collaborated with students and staff from 5+ countries, demonstrating strong cross-cultural communication, teamwork, and interpersonal skills.

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
