SUMMARY

Front-End Developer specializing in React.js and TypeScript with experience building responsive web applications and reusable UI components. Skilled in REST API integration, state management, and performance optimization. Familiar with Node.js, Express.js, and MongoDB through a hands-on MERN stack internship. Seeking a Front-End Developer role to contribute to scalable and user-focused web applications.

SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

State Management: Redux Toolkit, Context API

Backend: Node.js, Express.js, MongoDB, MySQL

Tools: Git, GitHub, Vite, npm, Postman

Concepts: Responsive Web Development, REST API Integration, Performance Optimization

EXPERIENCE

Information Technology Institute (ITI)

Nov 2024 – Apr 2025

Web Development Intern (MERN Track)

Egypt

- Built a full-stack MERN web application utilizing React.js, JavaScript (ES6+), Node.js, and MongoDB.
- Engineered and integrated RESTful APIs to handle application data and CRUD operations.
- Developed responsive, component-based frontend interfaces using Bootstrap.
- Managed global application state using Redux Toolkit and Context API to enhance performance.
- Collaborated in Agile teams using Git and GitHub for version control and code reviews.

PROJECTS

Craftora | React.js, JavaScript (ES6+), Node.js, Express.js, MongoDB, Stripe | Live Demo

- Built a full-stack MERN e-commerce platform with secure user authentication and Stripe payment processing.
- Reduced API response times by 25% through query optimization and streamlined MongoDB data handling.
- Designed reusable frontend components and built RESTful APIs using Express.js to ensure scalability.

Hasmin – Bakery Website | React.js, JavaScript (ES6+), Tailwind CSS | Live Demo

- Crafted a responsive, mobile-first frontend website optimized across diverse device screen sizes.
- Ensured cross-browser compatibility and consistent UI/UX utilizing Tailwind CSS utility classes.

Flyee – Flight Booking Website | React.js, JavaScript (ES6+), Context API

- Implemented an interactive flight booking UI with dynamic state handling using Context API for smooth navigation.
- Structured modular, clean code components to support scalable frontend architecture.

ShopCart – E-commerce Application | React.js, JavaScript (ES6+), Redux Toolkit

- Constructed a retail application utilizing Redux Toolkit for centralized, global state management.
- Refined rendering performance by minimizing unnecessary re-renders and structuring components efficiently.

EDUCATION

Assiut University

Sep 2020 – Jul 2024

Bachelor of Science in Computer Science (GPA: 3.5/4.0)

Assiut, Egypt

Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Software Engineering

ADDITIONAL EXPERIENCE

UKLC (UK Language Courses)

Summer 2026 - Nantwich, UK | Summer 2025 - Manchester, UK

Activity Team Leader

- Led and coordinated daily activities and excursions for groups of 15+ international students across two summer programs.
- Managed real-time problem solving, conflict resolution, and safety protocols in fast-paced international environments.
- Demonstrated strong cross-cultural communication and teamwork while collaborating with students from 5+ countries.
